

SLOT LED

Talent runs in the Family.

The Slot LED family has been a popular choice for its clean lines and inherent flexibility in configuring a lighting layout. Until now, it was mainly about the look. With continual enhancement of the performance characteristics and features that matter most, the Slot LED family has talents that now make it more than just a pretty face.

Multiple luminaire mounting options, superior color and quality, and optimized optical distributions are Slot LED family traits. Powerful yet intuitive controls, extraordinary efficacy, and impressive delivered lumens satisfy energy constraints previously attainable only with conventional grid lighting.

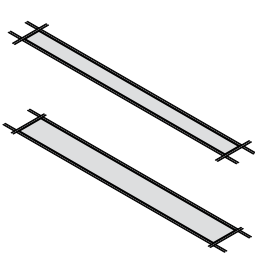

A smart family that performs as good as it looks.

Slot LED 2 / 4 / 6

Recessed, Pendant, Surface, and Wall
This family has it all.

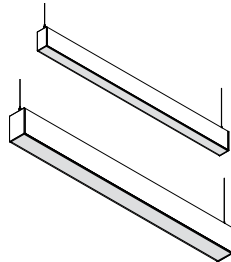

- **Unprecedented performance:** Best-in-class efficacy, delivered lumens and CRI
- **Unparalleled flexibility:** Multiple lumen packages, CCTs, and mounting styles
- **Beautiful dimming:** Available constant current LED drivers from eldoLED® deliver smooth, flicker free dimming to 0.1%
- **Intuitive controls:** nLight® digital control options provide daylight dimming, occupancy detection, and constant lumen management
- **Compatible:** Configurations support A+ Certified Solutions
- **On The Mark:** Our most popular products can be tailored to project needs and shipped in 10 days

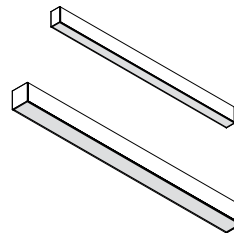

Recessed – Slot LED 2 / 4 / 6

- Shallow profile: only 4 3/8" installed depth
- Performance: efficacy up to 116 Lm/W
- Individual units, 2 – 8 ft. long
- Continuous runs in 1" increments, standard; 1/4" increments for custom orders
- Downlight modules, optional (Slot LED 4 / 6)
- Flush or regressed lens
- Universal mounting detail for sheetrock or various tile grid ceilings

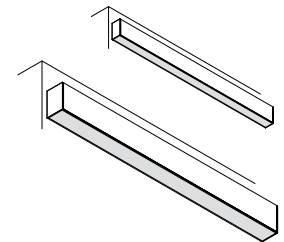

Pendant – Slot LED 2 / 4

- Performance: efficacy up to 110 Lm/W
- Patent-pending, precision lumen DIRECTIR optics deliver accurately controlled, striation-free, and uniform white light
- Individual units, 2 – 8 ft. long
- Three light distribution choices: Direct, Indirect, and Direct-Indirect
- Downlight modules, optional
- Wall wash and wall graze optics, optional

Surface – Slot LED 2 / 4

- Performance: efficacy up to 84 Lm/W
- Patent-pending, precision lumen DIRECTIR optics deliver accurately controlled, striation-free, and uniform white light
- Individual units, 2 – 8 ft. long
- Downlight modules, optional
- Wall wash and wall graze optics, optional

Wall – Slot LED 2 / 4

- Performance: efficacy up to 113 Lm/W
- Patent-pending, precision lumen DIRECTIR optics deliver accurately controlled, striation-free, and uniform white light
- Individual units, 2-8 ft. long
- Three light distribution choices: Direct, Indirect, and Direct-Indirect
- Wall wash and wall graze optics, optional

A+ Certified solutions from Acuity Brands help you quickly and confidently select and implement lighting systems, for indoor or outdoor applications, that are both compatible and consistent.

For lighting applications, A+ means verified consistent performance, visual appearance and system interoperability of all luminaires and controls within the certified solution. For lighting professionals, it means confidence that all parts of the lighting system will work together and meet common Acuity Brands specifications.

Go to www.acuitybrands.com/solutions/a-certified or contact your local Acuity Brands representative for more information.
