MARK ARCHITECTURAL LIGHTING"

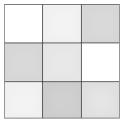

Rubik Grayscale has the look of a beautiful mosaic in shades of gray. The mosaic effect can appear in subtle or more dramatic tones or can even be made dynamic without impacting task illumination.

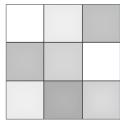

Mainstream Dynamic Grayscale with nTune™ **Technology**

nTune is an all digital control network within an nLight enabled luminaire. Take white light to new levels with Grayscale. Distinction, playfulness and interest usher in a new way to light spaces using dappled light without compromising volumetric performance. Ideal for modern and decorative patterns that either stand alone or integrate with additional layers of light.

Choice of 3 contrast settings

Maximum

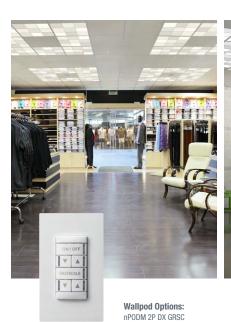

Pattern modulation without impacting lumen output

4000 lumens	

	4000 lumens	

- Simple plug & play installation by utilizing the nLight network
- Dimming capabilities to raise and lower light levels
- Adjustability of Grayscale Speed within a full range
- Customize your application with SensorView[™]

Rubik[™] Family

A Revolutionary Design Vocabulary for the Grid

Rubik[™] empowers creativity without complexity in its ultimate palette of high quality volumetric luminaires for the standard grid ceiling.

3 Forms

Build traditional or uniquely patterned layouts designed to provide ambient illumination.

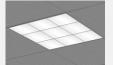

4 Luminous Styles

Create distinctive designs with our luminous styles including Mainstream Dynamic features - Tunable White, Grayscale and Color Accent - in addition to Static White.

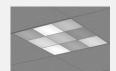

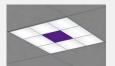

Static White

Tunable White

Grayscale

Color Accent

All designs can be combined in a single vision and all deliver high quality volumetric lighting for practical performance and design impact.

A+ Capable configurations compatible with A+ certified solutions. A+ Certified solutions from Acuity Brands help you quickly and confidently select and implement lighting systems,

for indoor or outdoor applications, that are both compatible and consistent.

For lighting applications, A+ means verified consistent performance, visual appearance and system interoperability of all luminaires and controls within the certified solution. For lighting professionals, it means confidence that all parts of the lighting system will work together and meet common Acuity Brands specifications.
